

Public School/Public Library Partnerships

Making a Difference in Student Achievement in Maryland

Public library systems in Maryland are engaged in many successful partnerships with Maryland public schools that are making a difference in student achievement and building community involvement.

Public Libraries provide resources for effective partnerships in the following areas:

- Birth to Five Initiatives for School Readiness
- Complementary Curriculum Based Learning Activities
- Resources for Curriculum Support
- Eliminating Summer Achievement Gaps
- Staff Collaboration and Professional Development Opportunities
- Community Building
- Collaborative Promotion of Educational Programs
- A Place for Learning Beyond the Classroom

For more information on active partnerships in these resource areas, and development opportunities within each county, go to:
